

Hightech Woods - Limited Warranty

(10-year coverage on commercial / Limited Lifetime on Residential)

Limited Warranty-

Sustainable Flooring warrants that the Hightech Woods sold under this Warranty are, at the time of sale, free of defects in material and manufacture, and that they adhere to Sustainable Flooring product specifications for the material and its' manufacturing.

Hightech Woods is made from natural wood fiber and wood veneers. Having a surface visual of natural wood veneer, that is further processed during manufacturing, color/shade can, and likely will vary, from plank to plank. This is a natural, known, and accepted characteristic of real wood, and would not be considered a manufacturing defect.

Hightech Woods, as with other flooring that is made of natural components, is at the whim of the environment to which it is installed, and careful consideration and acclimation should be done to ensure the product being installed is within equilibrium of the space to which it is being installed, and that the space to which it is going, is conditioned, and controlled to maintain those equilibrium conditions throughout the year. Please note that 'movement' after installation (as it relates to expansion, contraction, or otherwise), is not a warrantable issue, as this is related to acclimation, installation, and site conditions, which are all components outside of Sustainable Floorings' control. For supplement information on acclimation, please view/download our acclimating document on our website, here: <https://www.sustainableflooring.com/acclimating/>.

This warranty is designed to ensure that the material you receive is made in accordance with the accepted quality standards for its' manufacturing, while highlighting points of concern that are NOT warrantable and should be addressed either during site preparation, the physical installation, and/or during the 'use' (in situ) of the material. With that said, this warranty does NOT cover damage or defects (herein considered and referred to as '**exclusions**'), resulting from, or in any way caused by:

- Improper storage, handling, and installation of Hightech Woods (inclusive of improper installation of substructure/subsurface material and its' preparation).
- Moisture problems at site (inclusive of ambient moisture, condensation, moisture coming from the subfloor or above, or any other moisture introduced to the flooring material through its' presence on the site)
- Structural problems at site (inclusive movement or settling of substructure or substrate to which the material is applied, or other)
- Normal 'wear-and-tear'
- Surface damage caused by impact (inclusive marring, dimples, gouges, or scratches), the presence of abrasives (rocks, pebbles, sand, etc.) or other damage caused by improper placement, and/or failure to protect and maintain material properly.
- Surface damage caused by misuse, negligence, lack of maintenance, application of solvents (including corrosives or other chemicals), stains, or finishes.
- Color changes (such as fading, or damage caused by the sun)
- Natural catastrophic events or events beyond the control of the manufacture.
- Installation of panels with defects (visual or otherwise). (**Note:** it is the job of the installer to analyze and carefully review all of the material received to confirm suitability for installation. If there is a quality concern, or unacceptable panels are found prior to or during the installation, any panels of concern should be set aside, and the supplier contacted so next steps can be determined).
- Adhesion (**Note:** ineffective adhesion is NOT a product defect, nor a warrantable claim). It is always recommended to 'test' the adhesive prior to site installation to ensure if one is needed, that a suitable one is used.
- **Note:** Any damage caused to Hightech Woods during shipping is the responsibility of the shipping company and is not covered under this Warranty.

If an issue is noted with the Hightech Woods planks, the owner of the product must notify Sustainable Flooring within 10 days of discovery of any non-conformity through written notice. The written notice must describe the situation thoroughly, including the location, installation date, and installers' name and contact information. The owner must give Sustainable Flooring a reasonable amount of time to review the issue to the degree they feel necessary, and they reserve the right to inspect the material as needed. If these requirements are not met, Sustainable Flooring will have no obligation to remedy any non-conformity. Sustainable Flooring, using their discretion, will replace 'non-conforming' product at their cost, or refund the purchase price of the material to the owner. Sustainable Flooring warranty only covers material and does NOT cover the ANY labor costs (removal, reinstallation, or otherwise).

Warranty Disclaimer

The above warranty is the exclusive and sole express warranty given by Sustainable Flooring for its' Hightech Woods. It supersedes any prior, contrary or additional representations, whether oral or written. Any implied warranties, including Warranty of Merchantability, or any Warranty of Fitness of a Particular Purpose, are limited in duration to the warranty period for Sustainable Flooring express warranty, above. (Not applicable in all states)

Exclusion of Incidental and Consequential Damages

In no event shall Sustainable Flooring be liable for any incidental, special, indirect or consequential damages, whether resulting from delayed or non-delivery or from the use, misuse, or inability to use the product or from defects in the product or from Sustainable Flooring own negligence. (Not applicable in all states)
